Sewing and quilting machine

Celeste⁺
Innov-is CX1

Built for the
seriously creative

When you're as serious about sewing and quilting as you are, you need a top of the line, powerful sewing machine.

The Celeste CX1 has been built for serious crafters like you. It brings together all of Brother's cutting-edge, superior sewing technology so you can concentrate on taking the creative lead.

It's time to get serious about your sewing, it's time to invest in a Celeste CX1.

Premium features:

- Extra-large workspace: 285mm (11.25") long arm
- 760 built-in decorative and utility sewing stitches, incl 16 buttonholes, 92 satin stitches
- Master free motion quilting – included Intelligent Stitch Regulator
- Fast – up to 1,050spm sewing speed
- Precise – laser sewing guideline
- Easy-access needle plate and newly designed multi-tool
- Automatic electronic needle threader
- My Custom Stitch™ – design your own decorative stitches
- 10.1" high resolution LCD touchscreen
- Built-in movie tutorials and MP4 upload function
- Wireless connectivity
- 5-year warranty

Sewing just got serious

Your every stitch is a quest for perfection

With over 100 years of sewing experience, we know what serious sewers need and what serious sewing looks like. With the Celeste CX1 we've taken that knowledge and created a machine that is the very pinnacle of sewing perfection.

You won't have to worry that this machine won't be able to keep up. With fast sewing speeds, Intelligent Stitch Regulator, laser sewing guideline and automatic thread tension, thread cutter and automatic needle threader, PLUS a host of other functions, you can concentrate on taking the creative lead instead of sweating the small stuff.

Sew the straightest of seams

Sewing straight has never been easier than with the CX1's built-in laser guideline. Extending up to 19mm either side of the needle, it's easy to view, even on dark fabrics.

Guide your way to exact seam allowances or sew perfectly distanced and smooth decorative stitches.

ICAPS auto detection

Brother's ICAPS system automatically detects fabric thickness, keeping presser foot pressure steady and stitch length even.

Get consistent and smooth results, even when sewing with more than one fabric type or changing fabric thickness.

The Digital Dual Feed foot

The Celeste CX1 comes with a powerful digital dual feed foot that can sew an array of fabrics with ease, whether that is delicate silks or thick denims.

Expand your creative fun; even more built-in decorative stitches are now compatible with this foot.

Sew me!

Built-in stitches

The CX1 is bursting with 760 built-in decorative and utility stitches, including 20 tapering stitches, 3 sashiko stitches and 130 compatible stitches for the Dual Feed foot. Additionally, there are 16 one-step buttonholes, 92 satin stitches and four sewing lettering fonts.

Create your own stitches

My Custom Stitch™, Brother's powerful built-in stitch editing and designing software, allows you to create your own unique patterns straight into the machine via the LCD touchscreen. Combine existing stitches with your new creations for truly bespoke sewing projects.

State of the art

Operate your CX1 using the large 10.1" built-in high-definition LCD display. Effortlessly scroll through menus, navigate crystal clear icons, or perform on-screen editing.

Room to create

With a supersize working space you can take on projects large and small.

From curtains and quilts to tailored coats, there's plenty of space to work ergonomically and comfortably.

Extend even more with the included, slide-on wide table.

Into the future

Artspira

The CX1 features wireless LAN capabilities, providing a highly flexible and streamlined user experience. Connect to the Artspira mobile app for projects and tutorials.

Accessorise

Worth over
£880

The CX1 comes with 17 different presser feet, including the new N+ foot that boasts a durable coating allowing you to smoothly feed and align your fabric.

The newly designed Adjustable Zipper foot will allow you to add zippers, piping and other trims effortlessly.

Make your designs stand out even more with the yarn couching set, perfect for home décor or decorative patterns.

For quilters who love to quilt

Your craft is a story, each stitch building on the those you've sewn before.

With an extra-large working area, cutting edge quilting technology and pinpoint laser precision, perfect quilts aren't a fairytale, they're a reality with the Celeste CX1.

Seriously intelligent

Free motion quilting is no longer a mystery with Brother's included Intelligent Stitch Regulator (ISR). Switch to the ISR and say goodbye to uneven stitches.

Brother's ISR automatically adjusts the needle speed, ensuring a continuous, even stitch length is maintained no matter what speed the fabric is being fed.

With infrared Edge Detection System and three settings (intermittent, continuous, and basting) you can adjust the ISR to suit your way of free motion quilting, across projects of any size.

Choose from three included clip-in presser feet. The ISR has adjustable height settings and a curved design, so fabric flows easily underneath.

Starry night quilt designed by Legit Kits

Quilt designed by Brigitte Heitland, Zen Chic.

Quilt designed by Brigitte Heitland, Zen Chic.

Supersize superstar

With an impressive 11.25" (285mm) long arm easily tackle king-sized quilts.

You're in control

For hands-free creative control, combine the Dual Feed foot with the knee lift and pivot function. Add the optional multi foot control for even more functionality.

Quilter's heaven

A variety of quilting feet and other accessories come as standard with the CX1, like the straight stitch needle plate.

Switching between needle plates is quick and easy with the newly designed, included multi-tool.

Keep traditions alive

Embrace the traditional art of Japanese stitching with three beautifully simple sashiko stitches.

Celeste CX1, for when things get serious

If you're ready to turn your hobby into your hustle, then the Celeste CX1 is the ideal machine to expand your creative output on. Brother sewing machines have been built to always be at your side, their quality workmanship and sturdy design make them the crafting partner you can rely on.

Whether it's for business, or for pleasure, make the most of your craft with:

- **Plenty of choice** – 760 decorative and utility stitches, incl 16 buttonholes.
- **My Custom Stitch™** – create your own decorative stitches so you can make unique work not found anywhere else.
- **Professional handling** – professional features like ICAPS, combined with the Digital Dual Feed foot ensure you produce the highest quality work, every time.
- **Finish fast** – with sewing speeds of up to 1,050 stitches per minute.
- **Expert precision** – laser sewing guideline for professionally tailored results.
- **Optimised sewing** – automatic needle threader, auto thread cutter, lockstitch, adjustable bobbin winding speed and central controls – you have everything to streamline your sewing success.
- **Illuminating workspace** – optimal 10" LED lighting and generous workspace, letting you create freely.

*Machine warranty of one year only for business use.

How to...

Take your craft further, with Brother's Multi-Function Foot Controller*

Gain ultimate sewing control with Brother's programmable Multi-Function Foot Controller.

Control up to three sewing functions with just the press of your foot including thread cutting, single stitch sewing, reverse stitch sewing, and moving the needle up and down.

*Additional purchase necessary

Sewing and quilting machine
